POSITIVE PROFIT ALERT

The Board would like to inform the shareholders of the Company and potential investors that based on a preliminary review of the unaudited management accounts of the Group and other information currently available, it expects the consolidated final results of the Group for the year ending 31 December 2014 to record a consolidated net profit, which is expected to significantly increase by approximately 80% to 100% as compared to the Group's consolidated net profit of US\$77,284,000 for the year ended 31 December 2013.

Shareholders of the Company and potential investors are advised to exercise caution when dealing in the shares of the Company.

This announcement is made by FIH Mobile Limited (the "Company", and together with its subsidiaries, the "Group") pursuant to Rule 13.09(2) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and the Inside Information Provisions (as defined under the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The board of directors (the "Board") of the Company would like to inform the shareholders of the Company and potential investors that based on a preliminary review of the unaudited management accounts of the Group and other information currently available, it expects the consolidated final results of the Group for the year ending 31 December 2014 to record a consolidated net profit, which is expected to significantly increase by approximately 80% to 100% as compared to the Group's consolidated net profit of US\$77,284,000 for the year ended 31 December 2013.

The Board understands that the expected consolidated net profit of the Group is primarily attributable to the continuous enhancement of the Group's consolidated gross profit margin which is expected to exceed 6% during the year ending 31 December 2014 (as compared to an average 4.48% during the year ended 31 December 2013), principally as a result of the corresponding continuous enhancement of the Group's yield and operation efficiency, as well as control of the Group's cost of sales and general and administrative expenses and optimisation of its research and development resources.

As the Company is still in the process of finalising the audited consolidated final results of the Group for the year ending 31 December 2014, the information contained in this announcement is only a preliminary assessment by the management of the Company based on the latest unaudited management accounts of the Group and other information currently available, which is subject to possible adjustments following further internal review, and is not based on any figure or information which has been reviewed by the Company's auditors or audit committee. The finalised audited consolidated final results of the Group and other related details will be disclosed in the 2014 final results announcement and annual report to be published by the Company.

Shareholders of the Company and potential investors are advised to exercise caution when dealing in the shares of the Company.
